TESTING REQUESTED / COMMENTS:	

The liability of Phyto Diagnostic Company Limited is limited to the cost of the services supplied and paid for. Failure to recover or identify a pathogen or microorganism in a sample does not imply that a field or commodity represented by the sample given is free of the pathogen. Due to the uneven distribution and/or seasonal fluctuation of pathogen concentrations in plant tissue and/or sampling method used, Phyto Diagnostics Company Limited does not guarantee, warrant or imply, as a result of negative test results, freedom of infection by a pathogen in the sample or plant from which the sample originated. By submitting a sample to Phyto Diagnostics Company Limited for testing, the customer acknowledges and accepts the limits of this liability and also acknowledges that Phyto Diagnostics Company Limited makes no warranty of any kind, expressed or implied.
